

# DISPOSE OF MEDICATIONS SAFELY!

Flushing prescription drugs can have harmful effects on the environment, public safety and people's overall health!

## HOME DISPOSAL

Do NOT crush tablets or capsules

Mix medications with items around your home like kitty litter or coffee grounds

Put that mixture in a sealed container and throw it in the trash

Scratch out all information on prescription bottles before throwing out

Use a Deterra disposal bag to safely dispose of medications – receive a free supply at [rx.missouri.edu](http://rx.missouri.edu) under "Med Safety"

## DISPOSAL

Take Back Events:

Take unused prescriptions to your schools' next take back event!

Drop Box:

Between take backs, take your unused prescriptions to your local drop box!
